Professional Summary

I am highly skilled self-taught web developer with 3 and half years of experience in both front-end and back-end development. Proficient in HTML5, CSS3, JavaScript, and various frameworks such as React , Flutter and Angular. Experienced in designing, implementing, and maintaining responsive websites , mobile applications and web applications. Strong problem-solving abilities and a keen interest in staying updated with the latest technologies and industry best practices. Proven track record of delivering high-quality work within deadlines. Excellent communication skills and ability to collaborate effectively in team environment

EXPERIENCE

Coaching Session Graphics   **2021 – 2023**

Senior Front – End Developer

- Led a team of front-end developers in the design and implementation of complex web applications, ensuring adherence to best practices and coding standards.
- Developed and maintained large-scale, high-traffic websites, optimizing performance and user experience through efficient code and responsive design techniques.
- Collaborated closely with UX/UI designers and back-end developers to translate design mock ups and requirements into interactive and functional web interfaces.
- Implemented modern front-end frameworks and libraries such as React, Vue.js, or Angular to streamline development processes and improve maintainability.
- Mentored junior developers, providing guidance on technical challenges, code reviews, and professional growth opportunities.
- Conducted regular code reviews and refactoring sessions to ensure code quality, performance, and scalability.
- Stayed abreast of emerging technologies and industry trends, evaluating their potential impact on projects and making recommendations for adoption where appropriate.
- Actively participated in Agile development methodologies, including sprint planning, daily stand-ups, and retrospectives, contributing to continuous improvement and delivery excellence.
- Designing and structuring the layout of websites, ensuring an intuitive user experience and seamless navigation.
- Crafting the visual elements of the User interface, focusing on enhancing user interaction and satisfaction.
- Improving the overall experience of user by enhancing usability, and overall satisfaction with products.
- Ensuring that the visual elements align with the brand identity, maintaining consistency across various digital platforms.
- Search engine optimization on all website.

Dercolbags Packaging LTD   **11/23 - 02/24**
